

	<h2>Printer R 40 Dater</h2>																							
	<p>Plastic self-inking date and text stamp</p>																							
<p>USP's / Application Field</p>	<p>Round and oval Printers – the first and only round and oval self-inkers in the world. Round and oval for round and oval imprints – harmonious unity of the design of the stamp and the shape of the imprint. Pre-punched index card on the top of the handle, protected by the index window, shows the complete imprint. Bigger machines have integrated rubber feet, which prevent the stamp from sliding away, while stamping. A widened lower part of the casing of the bigger machines guarantees more stability.</p>																							
<p>Standard Pad</p>	 E/R40
